# Introducing Dual Diagnosis

**COURSE INFORMATION 2012**

## Course Overview: Introducing Dual Diagnosis

This 1-day in-house course uses realistic scenarios to enable participants to look at the reasons why mentally ill clients are so prone to drug and alcohol problems, the potential consequences of dual diagnosis, and current assessment and treatment approaches.

Dual Diagnosis describes the co-occurring problems of mental illness and substance misuse. However, the term 'dual' is something of a misnomer - the needs of this client group are often highly complex and extend beyond the relatively simplistic scenario implied by the term 'dual diagnosis'.

Dual Diagnosis affects up to one third of all service users with a severe mental illness such as Schizophrenia, and community care agencies are becoming increasingly involved in the care and support of mentally ill people who abuse alcohol or street drugs. We will also introduce delegates to a Toolkit of skills and interventions including the technique of Mind Mapping to make sense of complex scenarios for both service users and the workers supporting them.

### Working with JCK Training

Booking one of our courses is a collaborative process. From requesting a quotation to booking a date, we work closely with our clients to ensure each course is tailored to training needs and meets organisational learning outcomes. Programmes are adapted to meet the needs of any specific staff or client group at no extra charge, and Training Managers are asked to fully approve the programme before confirming dates and details. Clients will be invoiced (for the total quoted on the original quotation) on successful completion of the agreed project.

- 1** The course fee includes course delivery plus pre-course consultation and tailor-made Learning Objectives, content and case material specific and appropriate to the service users with whom your organisation works. Course materials are included as well as Certificates of Attendance for each delegate, which will be printed, signed and sent to you by post within a week of the training.
- 2** We usually deliver training over the course of a day, but most of our courses can be delivered as shorter 3-hour workshops with some truncation of Learning Objectives and content. Please enquire if this might be of interest to you. In most cases we can only provide shorter workshops on a consecutive AM and PM basis as it would not be practical to travel long distances for a single 3-hour course.
- 3** Travel expenses are based on a return journey between our base in Weymouth, Dorset and the training venue arranged by your organisation. We use Google Maps to calculate the shortest car journey, but will travel by train or air where practical and financially viable in which case any savings will be reflected in the quotation.
- 4** We will charge for overnight accommodation and subsistence only where significant travel is required by the trainer prior to course delivery.
